

File Table

A table of contents for the files inside of a NSMB DS ROM.

Note: **bold** entries are files.

TODO: Expand this table to contain all files, splitting the table if needed

Filepath	Description
fnt.bin	<i>File Name Table</i> It contains filenames, folders and folders names.
fat.bin	<i>File Allocation Table</i> It contains every file's address in the rom and its size.
header.bin	Header
arm9ovt.bin	It lists every arm9 overlay, its location in the rom and where it should be loaded in the ram.
arm7ovt.bin	It should list every arm7 overlay, its location in the rom and where it should be loaded in the ram.
arm9.bin	The code for the main processor.
arm7.bin	<i>The code for the coprocessor.</i>
banner.bin	Contains the game banner text and icon shown in the system bios
rsasig.bin	<i>Some signature</i>
/	Root folder
/00DUMMY	<i>Empty, NSMBe uses it to store tileset, their objects' descriptions, backgrounds and music names after renaming them</i>
/BUILDTIME	<i>Last game build time</i>
/ mgvs_sound_data.sd at	<i>Minigames music</i>
/sound_data.sd	<i>Main game music</i>
/ARCHIVE/	Contains archives for minigames and download play

Filepath	Description
